Emergency phone number : 01 45 42 59 59 (ORFILA)

1. Identification of the product

Nature : in pail
Dangerous component : GLYCOL ETHYLENE
Use : for Industrial use

2. Composition

This product is not dangerous

<u>Name of the substance</u>	<u>Case nr</u>	<u>% weight</u>	<u>Danger</u>
SILICIUM (Amorphous)	14808-60-7	40 to 55	Not classified as dangerous
CLAY	1332 - 58 - 7	30 to 40	Not classified as dangerous
WATER (distilled water)		10 to 15	Not classified as dangerous
BENTONITE	1302 -78-9	1 to 5	Not classified as dangerous
GLYCOL ETHYLENE	107 - 21 - 1	1 to 3	Hazardous , Xn (R 22 and S2)

3. Identification of the danger

Phases relating to the danger : not considered as dangerous in comparison with the concentration of the components.

Physical and chemical danger : skin, eyes

Symptoms resulting of use :

- Inhalation : Not dangerous in normal use conditions
- Contact with skin : A long contact with skin can cause irritation
- Contact with the eyes : Slight irritation
- Ingestion : No emergency treatment

4. First aid

First aid :

- Inhalation : NA
- Contact with skin: : Rinse with hot water and soap. Wash the clothes before reuse. A long contact can cause irritation and in case of some products a skin allergy
- Contact with eyes : Immediately rinse with much water. Let a doctor come if the victim continues to feel unwell or in case of irritation as well
- Ingestion : NOT APPROPRIATED

For the attention of the doctor : Symptomatic treatment.

5. Fire protection

- Flammability class : non combustible
- Extinguishing means : all extinguishing means possible
- Personnel protection : Glasses, gloves. boots
- Specific risks : NONE
- Fire protection : NONE

6. Hazardous spreading

- Personnel precautions : Protection gloves
Maximum reduction of dust production
- Environmental protection domain : Eliminate the wastes through the restrictive ways of the public domain
: Prevent the wastes from falling into the sewers, the ground or drinking water
- Cleaning : Water protection
Maximum skin protection

7. Handling and storage

Storage	:	NA
		
Type of packaging	:	
Type of not authorized packaging	:	None
Storage	:	Temperature from – 5°C to + 30°C
Handling	:	Avoid packaging damages

8. Exposure checking / individual protection

Individual protection	:	
- respiratory protection	:	Not required
- skin protection	:	Use protection gloves.
- eye protection	:	Safety glasses.
- ingestion	:	Do not eat, drink nor smoke during use.
- Industrial hygiene	:	Avoid not necessary exposure. Rub dust off eyes, skin or clothes. Avoid unnecessary exposure.

9 Physical and chemical protection

Physical aspect	: pasteous
Colour	: brown
Odour	: none
PH	: NA
Freezing point (°)	: NA
Composition change (°)	: hardened at > 100°
Water solubility	: (g/kg) . not soluble
Flash point (°)	: NA
Self inflammability (°)	: NA

10 Stability and reactivity

Stability	: Stable under normal use conditions
Risks of hazardous degradation	: NA
Dangerous reactions	: NA
Contacts to be avoided	: NA
Conditions to be avoided	: NA

11. Toxicity

Toxicology information	: There is no toxicologic risk in normal use conditions
Ingestion : (rat) DL 50 (mg/kg)	: NA
Percutaneous absorption (rat) DL 50 (mg/kg)	: NA
Inhalation (rat) DL 50 (mg/mg ³)	: NA
Chronic toxicity:	
Ocular toxicity	: slight irritation of the eyes
Acute toxicity	: None

RAILTECH INTERNATIONAL ZI du Bas Pré 59590 RAISMES France	SAFETY DATA SHEETS LUTING PASTE	Page : 5/6 Revision :1 Date : May 2009 Sheet N° PALSEAU 01-02:
--	--	---

12. Environmental action

Information on environmental affect	:	No toxicity for the environment In order to avoid environmental damages meet the regulations on disposal and recycling enforced
CL 50-24 hours – poison (mg/l)	:	NA
DCO	:	NA
DBO 5 (gO ₂ :g)	:	NA
Bio accumulation potential	:	No toxicity for the environment
Biodegradation (%)	:	None

13. Disposal

Waste disposal	:	To be disposed in conformance with the local or home safety regulation enforced
Processing the contaminated packaging	:	After sorting , appropriate processing Once used (plastic, cardboard, metals...) shall be separately disposed and recycled

The disposable cubicles which are not used can be disposed for elimination or recycling in conformance with the regulation on the environment

Diverse packaging such as cardboard or plastic shall be separately eliminated and reworked in the terms of the decree n°93-609 of the 13th of July 1994 and n°92-377 of the 1st of April 1992 or home regulations enforced in the countries in which the products are used.

Waste codification	Designation	Process
10/03/99	Used pail	Valorisation

14. Regulation

ADR/RID : NA

The pailsof paste are not classified as dangerous products and therefore not subject to specific transport regulations.

15. Other regulations

Classification, packaging and labelling according to directive 88/379/CEE about the provisions concerning the hazardous products and modified by the directives 89/178/CEE, 90/492/CEE and 93/18/CEE :

Symbol(s) : NA
Phrase(s) S : NA

16. Diverse information

Recommendation and limits : NA.

The content and format of this sheet meet the CEE Directive 93/112 of the CEE commission

The modifications of the text in comparison with the previous issue are indicated by “*” in the left margin of the page

RESPONSIBILITY DELEGATION : This information sheet has been drawn on the base of sources which can be considered as true. Nevertheless they are provided without express or implied engagement of accuracy . The conditions or methods prevailing for handling, storage or disposal are off control and can also be off our skills.

It is the reason why inter alia we disclaim all liability in case of loss, damage or costs due to or resulting of handling, storing, use or disposal of the product. This data sheet has considered as not applicable been issued and shall be used for this product only. If this product is used as a component of another product the information of this sheet may be.
